*P3a. Description (Describe resource and its major elements. Include design, materials, condition, alterations, size, setting, and boundaries)

The Clark Paper Box Company has been designed in the streamline style of the 1950s, with hints of 1930s Art Deco. The roof is comprised of barrel-vaulted sections and is covered with rolled asphalt shingle. The entryway is concrete block, possibly reinforced. The main entryway protrudes approximately 24 inches from the main wall, and encases the glass double doors to the lobby. Exterior walls are a combination of concrete and finished stucco. Windows on one portion of the structure are glass block, others are single pane "picture" style. The structure is in good to excellent condition.

The setting is a mix of industrial and commercial. The building, located along Leonis Blvd. extends from S. Soto Street on the east to Seville Ave. on the west. The structure is surrounded by other light industrial buildings and railroad spurs.
